# **Metalink bookmarklet**

Go to <http://bm.nodes.org>

Drag Metalink link to your bookmarks toolbar

Click on it whenever you want to execute a metalink. Add a period and the engine name if you want to search in a specific engine.

If nothing is found it will be passed to Google.

# How to create MetaLinks

1. Sign up at the Metamind
2. Cut and paste URL into field
3. Select "make metalink"
4. complete form

Metamind: <http://metamind.us/join>
